

'READY-TO-FIT', MAINTENANCE-FREE SITE HOARDING

Premier ProSite is pre-finished hoarding, fully top coat painted and ready to go for sites in the most visible and demanding locations and for projects of any size. Instant installation whatever the weather, Premier ProSite does the job immediately and with minimum interruption:

- no additional preparation on site
- no temporary barrier protection or drying time
- no solvent-based paints
- bespoke panel colours and graphics

“ To secure a 1km perimeter site in Bristol, we were looking for a hoarding solution that was cost-effective and robust. Premier ProSite hoarding has delivered on those counts and more. We’re confident that this hoarding will offer us the required level of security for the remainder of the project. ”

J&G Fencing

CUSTOMISED HOARDING FOR PROFESSIONAL SITE SECURITY

Factory-finished with a top coat exterior grade paint in any RAL colour, Premier ProSite is the premier pre-sealed and coated site hoarding to install. With optional bespoke and corporate branding, it offers you a professional long-term hoarding solution.

Robust Premier ProSite MDO board is long-lasting, offering a more environmentally friendly and ecologically sustainable choice. It will continue to look good throughout the harshest and wettest of British winters and on the toughest construction sites. Fit Premier ProSite hoarding once and in total confidence.

APPLICATIONS

Premier Forest Products supplies Premier ProSite hoarding to main contractors on major projects across the UK. From housing developments to construction and infrastructure projects, Premier ProSite provides branded, secure protection.

We offer a complete ‘fit and move on’ site-hoarding package delivered in one go either direct to site or into your depot. We also supply a choice of timber posts, rails, top/bottom plates, cover strips and gravel boards; these are available in a wide range of sizes and sourced from our stock holding branches and sawmills throughout the UK.

Regular Hoarding;

prepare & maintain board on site

- Additional cost of labour to finish boards
- Cost of materials; paint, brushes, ground cover tarpaulins etc.
- Weather considerations when finishing
- Additional printing and fitting services
- Cost of maintenance; materials and labour

FULL HOARDING SERVICE WITH SIGNAGE TO PROTECT YOUR SITE

COST EFFECTIVE HOARDING SOLUTION

Premier ProSite boards are a very competitive and cost effective option when compared to other timber panel products; the upfront costs of a pre-finished Premier ProSite panel are easily offset against the time, labour and materials spent on board preparation, priming and top-coating traditional plywood hoarding. Get a consistent professional finish with Premier ProSite boards, spray-painted in factory-controlled conditions at a rate of 500+ boards a day.

SPECIFICATION AND DESIGN

Premier ProSite is a MDO (Medium Density Overlay) board with a low emission, resin impregnated, exterior paper face, smooth phenolic film reverse and finished sealed edges. Made for Premier Forest at the Paged Mill in Poland using robust Scots Pine or Birch, which have higher strength, stability and a better quality finish than many other plywoods.

Premier ProSite can be supplied as both a raw board or as a bespoke top-coat finished panel to any RAL Colour. Boards are sprayed with Akzo Nobel exterior grade paint on the front and edges. The rear side has a phenolic protective coating.

Options:

- Sizes: 2440 x 1220 x 18mm
- Top and bottom PAR (Planed All-Round) rails and cover strips in matching or complementary colours
- Photographic quality graphics and signage printed directly onto panels
- Birch core panels where high quality graphics are required

“ We pride ourselves on supplying hoarding panels which are ready to install, cutting down on mess and labour time on site. Premier ProSite boards come with pre-sealed edges, which prolongs the life of the board and saves manually sealing the edges on-site. ”

Andrew Davies-Hoare, Business Development Executive at Premier Forest Products
