ACOUSTIC
FENCING**

Premier Fencing is a collection of best-in-class timber products aimed at delivering the complete fencing package for your landscaping projects. Whether it's for a home garden or commercial property, we will deliver top quality fencing and wood materials, plus all the trimmings, in one convenient order.

Delivering your vision in timber

THE COMPLETE FENCING PACKAGE

- Classic heavy duty fence panels
- Modern, decorative fence panels
- Feather edge boards
- Waney edge boards
- Screen cladding (a popular choice for fencing)
- PSE (Planed Square Edge) timber for fencing
- Fence posts; including spiked for agricultural use
- Fence pales (rounded top)
- Gravel boards / kick-plates
- Fence rails
- Sawn treated timber; including half and full-round poles, batten
- Post concrete
- Fixings & accessories: screws, nails, fence clips, post supports, tools
- Complimentary landscaping materials: gates, sleepers, garden furniture

MANUFACTURED IN THE UK

Premier Forest Products has been producing premium quality fence panels and fencing timber for over 25 years.

Our 10 acre production facility is based in the heart of the Welsh Valleys, and stocks a comprehensive range of wooden fencing and sawn timber materials, available for UK-wide delivery.

Using specialist machinery and a team of dedicated fencing experts, our classic fence panels are still manufactured to the original, high specification developed by our Duchy Timber branch in Cornwall. The panels are hand-finished and individually checked for quality assurance at every stage of production.

BUILT TO LAST

All our fencing products are built to last and manufactured to the highest environmental and quality standards. Quality is key. For example our classic fencing panels are made with up to 30% more wood as our competitors; our feather edge board is manufactured to a greater thickness, resulting in a stronger more durable fence.

Each piece of wood is individually pressure treated before panel assembly to ensure thorough, maximum penetration of the high performance preservative. Green and brown treatments are available; both aim to retain the beautiful, natural grain of the wood, while offering weather resistance.

For additional protection, all our ground contact posts are treated to use Class 4.

The combination of extra wood and careful treatment gives you a stronger and more robust product that will stand the test of time.

A RENEWABLE RESOURCE

While growing, trees absorb carbon dioxide from the atmosphere, capturing carbon which is then stored while being used as a building material. As a natural product, timber needs less energy to be produced compared to plastic or steel; by it's very nature, timber fencing is a renewable resource and can be recycled at the end of it's serviceable life.

For your peace-of-mind, many Premier Fencing products can be supplied with an FSC® (Forest Stewardship Council®) claim or PEFC (Program for the Endorsement of Forest Certification Schemes) claim to demonstrate they are made from timber sourced in responsibly managed forests.

Our classic panels are FSC® certified and made from homegrown species, cut and manufactured in the UK, which results in a significantly reduced carbon footprint compared to imported species.

Classic Heavy Duty Overlap

DECORATIVE FENCING

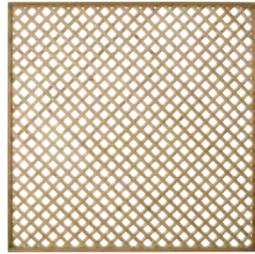

In addition to our classic fence panels, we can also supply stunning decorative panels from leading-brand manufacturers in various styles and designs.

EUROPA

EUROPA PRAGUE

ROSEMORE LATTICE

KYOTO

Panel thickness is 40mm.
 6'0" x 3'0" / 1.8m x 0.9m
 6'0" x 4'0" / 1.8m x 1.2m
 6'0" x 5'0" / 1.8m x 1.5m
 6'0" x 6'0" / 1.8m x 1.8m

Panel thickness is 35mm.
 6'0" x 1'0" / 1.8m x 0.3m
 6'0" x 2'0" / 1.8m x 0.6m
 6'0" x 3'0" / 1.8m x 0.9m
 6'0" x 4'0" / 1.8m x 1.2m
 6'0" x 5'0" / 1.8m x 1.5m
 6'0" x 6'0" / 1.8m x 1.8m

CONTEMPORARY / SCREEN PANELS

Manufactured entirely from planed timber, these beautiful, modern, on-trend screen panels look contemporary and stylish in any application. Available in Canadian Western Red Cedar or Scandinavian Redwood.

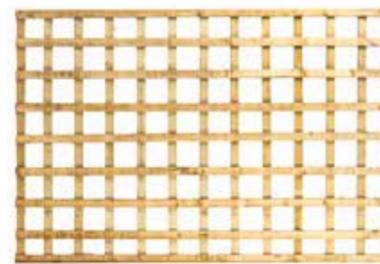

If you need more flexibility with sizing and budget, we supply the individual PSE (Planed Square Edge) boards so that you can create your own screen fence, cost effectively.

Panel thickness is 50mm.
 1.8m x 0.9m
 1.8m x 1.2m
 1.8m x 1.5m
 1.8m x 1.8m

HEAVY-DUTY TRELLIS

Strong enough to be mounted between posts as a fence enclosing an area without losing the view. The square trellis has 6 inch gaps. The battens themselves are 38mm x 18mm.

6'0" x 1'0" / 1.83m x 0.30m
 6'0" x 2'0" / 1.83m x 0.61m
 6'0" x 3'0" / 1.83m x 0.92m
 6'0" x 4'0" / 1.83m x 1.22m
 6'0" x 5'0" / 1.83m x 1.52m
 6'0" x 6'0" / 1.83m x 1.83m

FSC® certified

FENCING TIMBER

We also cut and supply top quality timber for your fence posts, rails and gravel boards, in various thicknesses and lengths. Our most popular sizes are listed, but just call us if you need something a little different.

FEATHER EDGE FENCING BOARDS

Feather edge board fencing is durable with a traditional style. It is highly versatile, ideal for use on slopes, uneven ground or where a full panel is simply too large for the space. Great for building a new timber fence, feather edge boards are also perfect for fence repair projects where perhaps only a few boards need to be replaced.

WANNEY EDGE BOARDS

A popular classic and similar to feather edge, waney edge is designed to be fitted horizontally with the boards overlapping each other.

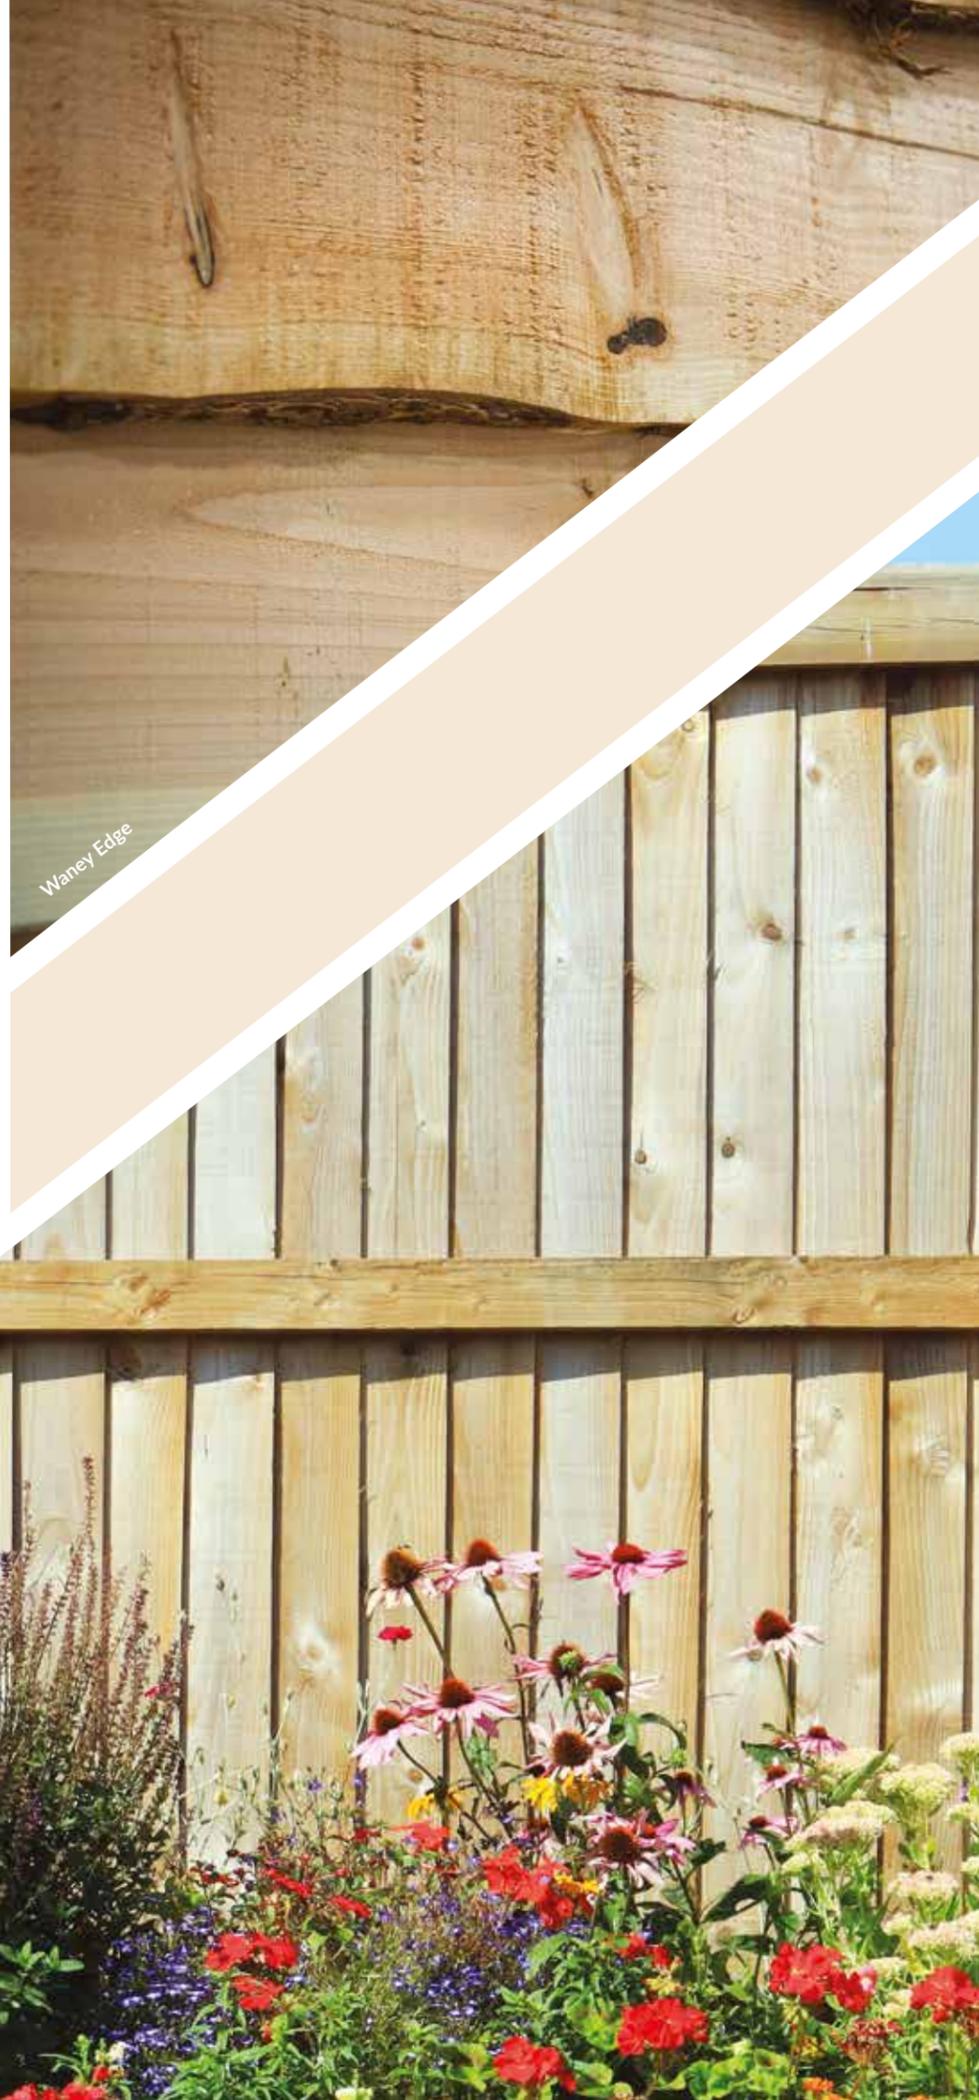

Waney edge boards feature one square edge and one irregular 'wavy' edge which is totally unique. This is because the board is cut from the outer part of the tree and often includes bark.

Our unseasoned waney edge boards are made from homegrown larch which contains knots.

Boards are 200 x 22mm but this varies between 150mm to 250mm due to the natural character of the profile. Coverage is typically 150mm.

ROUND TOP PALES

75mm x 19mm - 0.9m, 1.2m lengths

FENCE POSTS

- 75mm x 75mm - 1.5m, 1.8m, 2.1m, 2.4m, 3.0m, 3.6m lengths
- 100mm x 100mm - 1.8m, 2.1m, 2.4m, 3.0m, 3.6m, 4.8m lengths
- 125mm x 75mm - 1.8m, 2.1m lengths

Post caps are available to assist water-run-off and prolong the life of the post.

FENCE RAILS

- 50mm x 38mm - 3.6m, 4.8m lengths
- 75mm x 47mm - 3.6m, 4.8m lengths
- 88mm x 38mm - 3.6m, 4.8m lengths
- 100mm x 38mm - 3.6m, 4.8m lengths
- 100mm x 47mm - 3.6m, 4.8m lengths

CAPPING RAILS

- 38mm x 50mm - 3.6m lengths

GRAVEL BOARDS

- 75mm x 22mm - 1.8m, 3.6m, 4.8m lengths
- 100mm x 22mm - 1.8m, 3.6m, 4.8m lengths
- 150mm x 22mm - 1.8m, 3.6m, 4.8m lengths
- 175mm x 22mm - 3.6m, 4.8m lengths
- 200mm x 22mm - 3.6m, 4.8m lengths

FENCING ACCESSORIES

Post concrete, panel clips, screws, nails, stock fencing wire and all the accessories you'll need to complete your fencing project.

SCREEN CLADDING

Screen cladding is a popular alternative to contemporary fence panels; you can create a similar effect but have greater versatility in the sizing the fence to fit your needs, or even mix & match sizes for a truly unique look.

There are many species to choose from, depending on your budget - just call us for advice or visit our website to find out more.

PSE (planed square edge) timber can also be used as fencing and is a cost effective alternative to screen panels or screen cladding; be sure to stain or paint the timber to make it suitable for outdoor use.

COMPLIMENTARY PRODUCTS

GATES

Need a fence with access? Take a look at our wide selection of gates in 0.9m and 1.8m heights. Our gates are manufactured at our Duchy Timber branch in Cornwall, by a team of experienced carpenters.

DECKING & SLEEPERS

Timber decking, decking frame timber and sleepers are also in stock, so you can buy everything you need for your landscaping projects in one convenient order, in one delivery. Easy!

OUTDOOR FURNITURE

Finish with a flourish and furnish your outdoor space with premium quality, hand-crafted garden furniture.
