With VINTERO architectural surfaces, you not only set absolute surface trends, but also get an exciting solution for impressive furniture and interior design, wherever industrial style is required.

Can be used for:

- Furniture fronts
- Wall panelling
- Table tops
- Sales facilities
- Kitchen backsplash
- Decorative elements

Fields of application:

- Exhibition booth construction
- Interior design
- Object furnishing
- Hotel & Gastronomy
- Shopfitting
- Shop & Retail

VINTERO surfaces are handcrafted with the utmost care.

The lively different structures and changing colour play make each surface unique.

We offer VINTERO design surfaces in a flexible version, which can also be used as wall coverings.

The surface consists of an acrylic resin-bound mineral material.

The panels can be processed with normal carpentry tools as well as with CNC technology (drilling, sawing, milling, grooving).

Dimension:

3.000 x 1.000 mm (Flex)

Thickness:

ca. 2 mm (Flex), Fleece fabric on the back

Installation recommendation:

Wall: Wallcovering glue (dispersion adhesive)

Panels: (MDF/Chipboard): White glue (PVAc), PU glue

VINTERO Flex (Roll)

With **VINTERO** design surfaces for furniture & interiors
create impressive furnishing ideas.

Do you have questions about the product, would
you like advice, a sample or a non-binding offer?
