PANEL PROCESSING & SERVICES

PANEL PROCESSING

Our specialists have a trade wide reputation for technical excellence and service within the upholstery market, customising panels for a range of upholstery and frame making applications. Our range of intricate and complex machinery provides us with bespoke cutting capabilities for panel products, allowing us to turn any panel into your project solution. Our in-house facilities mean we have complete quality control and production flexibility to meet both your large, and small order needs.

We also work with a number of component companies across Europe, that provide high quality products in partnership with Premier Forest.

COMPONENTS

From furniture legs to footstool components, we offer a broad choice of products to meet your individual project needs.

Each request is discussed with our experts who utilise our in-house design, machining and joinery capabilities, as well as our extensive supplier partnerships.

FURNITURE FEET

We offer high quality furniture feet crafted to meet your specifications including turned, tapered and L-shaped designs. Feet are pre-finished and supplied with either M8 bolt fixing or pre-drilled for screw fixing. These are then carefully packed in boxes and palletised, allowing you to have complete confidence in the safe transportation of products.

1. Send us your design drawings or samples
2. We'll create a quote based on your requirements
3. Quote acceptance
4. Samples are made for your approval

Minimum order is 100 feet and lead-times are between 5-6 weeks.

NATIONWIDE DELIVERY

We cater for all your timber needs with our diverse services and bespoke product offering, available nationwide. With pick-a-pack across our Newport, Creeksea (Essex) and Doncaster sites, we are committed to providing a versatile and flexible service, including combining a wide variety of products on a single delivery, to fit your needs.
