**SPECIALIST JOINERY**

Using the latest machinery, Premier Forest Specialist Joinery designs, manufactures and installs bespoke joinery solutions for the commercial, healthcare, education and retail sectors.

# EXPERTISE

With decades of experience within the industry, our in-house designers ensure all commercial joinery projects meet your needs and specifications. We pride ourselves on our attention to detail as well as the craftsmanship we apply to all our products and installations.

Our team of experienced specialist joiners can help you achieve your vision by using high-tech equipment to produce unique, tailor-made solutions. Custom pieces can be developed and scaled to meet the demands of both large contracts and smaller projects.

We work with a wide range of premium woods to meet any design requirement, helping bring our clients' vision to life with precision and elegance. We also partner with expert specialists in stone, glass, upholstery and metal, to deliver a high-class finish and meet the most demanding standards. In addition to our CNC machining and precision bonding capabilities, we offer thermoforming, enabling us to craft bespoke curved shapes from solid surface materials.

## SPECIFICATION & DESIGN

There are a few simple steps that we take in order to design, manufacture, deliver and install your bespoke joinery products:

- We work with you to establish what custom-made installation or product you require.
- Our CAD technicians will produce CAD workshop drawings, to bring your vision to life.
- Of course, we are happy to work with you to discuss any revisions to fine-tune the design if needed.
- Once the design is agreed and approved, your unique joinery solution will be produced using our high-tech equipment and hand finished by our joiners.
- On the agreed date, our highly skilled carpenters will install your tailor-made joinery.
