# Paged

With built-in protection from fire **AND** water, DryGuard FR is a structural plywood which saves time, money & effort on site, while providing the ultimate protection for your building.

- **Fire resistant;** to B-s1, d0 (EN 13501-1)
- **Reduced build delays;** slows the absorption of water for up to 90 days\*, reducing drying time
- **No need to cover;** or build false roofs, saving labour & material costs, time & effort
- **Resistant to warping, less waiting;** drying-time is reduced & structural integrity is retained
- **No mould;** DryGuard FR is protected against fungal growth, saving remedial costs

**DryGuard FR. The Ultimate Protection.**

\*In average seasonal weather conditions

Cladding in a choice of species & profiles, machined in-house for quality control & production flexibility

Timber products for first & second fix

Design & manufacture of bespoke staircases plus components

Door sets, doors, frames, linings & ironmongery

Kitchen, bedroom & bathroom cabinet doors & work tops
